

MIND MATTERS®
HYPNOSIS CENTER, LLC

Dear Health Care Provider:

We have been contacted by your patient _____ D.O.B. _____ requesting instruction in self-hypnosis.

It is our policy to be sure that the attending physician or other health care providers are aware that their patient is practicing hypnotism and will, as research supports, experience several positive shifts in their overall health as a result.

Consulting Hypnotism is motivational coaching by means of hypnotism and is not considered health care. Therefore, health insurance does not normally cover hypnotism and your patient will be paying us directly for our services.

If you have any objection to your patient receiving hypnotism please inform us immediately by calling (860) 693-6448 or by emailing info@mindmattershypnosis.com. If there is anything in specific you would like us to include in our work with your patient, such as pain control, appetite management, blood pressure or diabetes management, stress reduction, smoking cessation, anger management, or something else, please let us know.

We are Consulting Hypnotists in good standing with the National Guild of Hypnotists and our continuing education is current. We practice in accordance with the Code of Ethics, Standards of Practice and Recommended Terminology of the National Guild of Hypnotists, and give every client a comprehensive Client Bill of Rights which fully discloses our training and practice limits. Please feel free to learn more about our services and longstanding service to the community, on our website at www.mindmattershypnosis.com.

We would also be happy to discuss our services with you and/or your staff at your convenience.

In health,

The Mind Matters Hypnosis Team
